Project Experience

Conversational AI for Education

Mar 2015 - Feb 2021

Graduate Project with E-Friending Corp. [$\underline{docs} \mid \underline{pdf} \mid \underline{code} \mid \underline{demo}$]

- Developed the conversational AI chatbot app using pre-trained model for beginners who want to learn English

Process Improvement for Seoul Bike using Data-Mining May 2019 - Nov 2019 The Korean Society for Quality Management. [pdf | code]

- Made a solution how to improve 020 services of the Seoul bike
- defined the problem by analyzing user reviews using text mining. and analyzed user survey

The Analysis of the Housing Market in Sejong-si Fe Compas - LH Corp. [code]

Feb 2021 - Mar 2021

- Visualization of analysis using LSTM, Clustering and show the feature of each dong in Sejong-si

Red Button Seoul Studio Web Development

July 2019 - Jan 2020

Redbttn Seoul [code | demo]

- Made the website as full-stack development to present the studio's brand
- Developed an Instagram feed synchronization, HLS streaming, and dynamic animations using AWS, Python, Django, CSS, HTML, JS

Awards

Best Presentation Award in Quality Management

Nov 2019

The Korean Society for Quality Management [certification]

- Get a prize of the paper presentation of AI/Big Data on Quality Management including all sections.
- Suggest Improvement of App. and Offline service using Data Mining.

GPA and English score

Hankuk University of Foreigner Studies

Mar 2015 - Feb 2021

Industrial Management Engineering | Division of Computer Engineering

- Major GPA: 3.62 / 4.5 (IME)Minor GPA: 4.19 / 4.5 (CE)
- Overall GPA 3.64 / 4.5 [certification]
- TOEIC score: 825/990, LC 455 / RC 370

Teaching

Coding Assistant Teacher

Sep 2020 - Dec 2020

Al Education Center at Korea University of Foreign Studies

- Teaching assistant in Python programming for computational thinking at Al Education Center.
- Answering questions about 30 or more students twice a week from basic python grammar, programming, and basic algorithms.

Online Courses

Deep Learning Theory and Practice using Tensorflow

Aug 2020

Al Education Center at Korea University of Foreign Studies [certification]

- Learning deep learning theories such as CNN and RNN and implementing them as Tensorflow.
